SAN DIEGO ACADEMY

THERAPIES & SCIENCE
6th GLOBAL
CONFERENCE
Dive In
JUL 31 - AUG 3, 2025 | SAN DIEGO

DEAR INDUSTRY PARTNERS

On behalf of the San Diego Academy of Regenerative Therapies and Science (SDARTS), I invite you to become an Industry Partner of the SDARTS 6th Global Conference. Our conference is designed to bring together multi-specialty practitioners and industry partners who are enthusiastic about the promise of clinical advancements in adipose regenerative therapies. I've selected our faculty based on their expertise in this emerging field and their exceptional teaching skills. They will speak on the latest innovations in regenerative medicine explaining clinically proven step-by-step protocols that ensure reproducibility in clinical practice. In addition, the faculty will cover the most current science behind regenerative therapies as well as promising new applications.

More importantly to you, as you consider becoming an Industry Partner, is that the faculty of our 6th Global Conference demonstrates the caliber of pioneers who are eager to share their expertise with the attendees. These well-respected speakers will engage with industry and participants in an intimate setting on the UCSD campus.

I recognize the significance industry plays in adding to the value of a conference like this. It's important to me to assemble the best and the brightest Industry Partners who not only make it easy for practitioners to access the products and services that are of highest value to them, but also to provide a forum where Industry Partners and Practitioners can collaborate to advance the field of regenerative medicine. This is where true innovation happens. I invite you to consider joining us at SDARTS 2025.

SDARTS shall have full power in the interpretation and enforcement of rules and regulations governing exhibitors. Issues and questions not covered by the regulations shall be subject to the final judgment and decision of SDARTS. 2. PURPOSE OF EXHIBITS

The purpose of the exhibits is to complement the professional meetings and clinical sessions by enabling registrants to evaluate the latest developments in equipment, supplies, and services that are relevant to patient care. 3. INSTALLATION

All exhibits must be erected by the given time within the general information
